as wall and floor tiles.

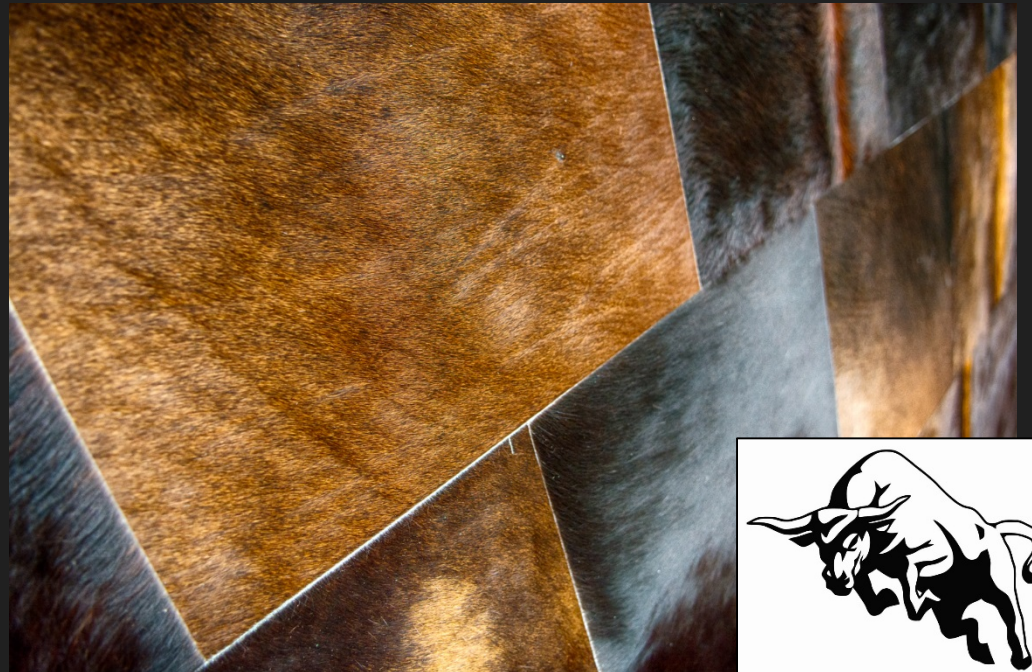

HAIRY TILES

A personal touch for a unique interior!

Buffalo's are individuals with a unique skin design! The color tone variation in each hide can not be copied, but guarantee authentic finishes.

We cover the backing with a laminate to give the Hair on Hides Tiles firmness that is needed.

Natural light skin joints can appear due to the natural hair growth with installation Hair on Hides Tiles, see examples on these pictures.

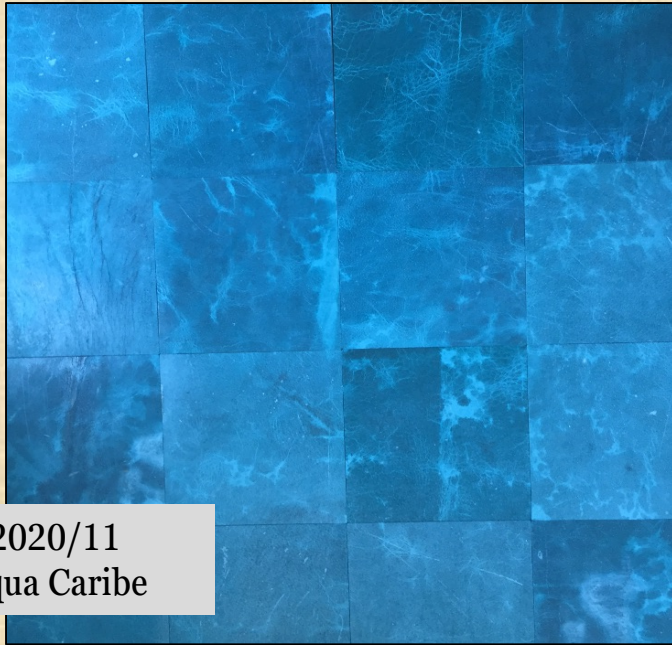

Amazing leather floors!

All our leather tiles are suitable for flooring! We recommend you to get Underflooring by fiberboards or wood panels. Combinations of colors and hides create unique patchworks. Keep them in condition with a natural wax!
